ACHIEVEMENTS

- LeetCode Contests:** Consistently ranked in the top 16% (1600+ rating) in competitive programming contests, solving over 250 problems with efficiency and accuracy.
- CodeChef Rating:** Achieved a 4-star rating in problem-solving on CodeChef, demonstrating advanced skills in algorithmic challenges and competitive programming.
- HackerRank Certifications:** Earned 8+ certifications and showcased skills in Data Structures, JavaScript, Node.js etc. contributing to a robust understanding of coding fundamentals.
- GeeksforGeeks:** Solved over 400 problems and maintaining a streak of 100+ for Problem of the Day.
- GitHub Projects:** Developed and maintained several personal projects on GitHub.

PROJECTS (available on my Github repositories)

- Tourism site:** Built an Airbnb clone using Express, NodeJS, MongoDB, etc.
- Weather application:** Built a weather app for displaying and predicting the weather using React, WeatherStack API, and Tailwind CSS.
- ChatBot:** Developed a ChatBot using Python (openAI's API).
- Text-Editor:** Developing my own text editor using React.
