EDUCATION

B.E. in Computer Science Specializing in AI and ML
Chandigarh University
(2023-present)

PROFILE

Dynamic and dedicated Computer Science students with hands-on experience in JavaScript, C++ and Java. Successfully developed and deployed multiple web applications, demonstrating a keen eye for detail and innovative problem-solving skills. Known for my adaptability and collaborative spirit, I excel in both individual in team projects. Passionate about leveraging technology to drive impactful solutions and eager to contribute to cutting-edge developments.

SKILLS

- Node.js
- React
- Express
- EJS
- JavaScript
- MongoDB
- MySQL
- Git

PROJECTS

- **Tourism site** : Built an Airbnb clone using Express, NodeJS , MongoDB etc..
- **Weather application** : Built a weather app for displaying and predicting the weather using React, WeatherStack API and Tailwind CSS.
- **ChatBot :** Developed a ChatBot using Python(openAI's API).
- **Text-Editor :** Developing my own text editor(resembling Visual studio) using React and NW.js.
- **Analystic Dashboard :** Created a social media Analystic Dashboard using Facebook Graph API and postgreSQL.
- **Code Compiler :** Built my own code compiler and judge with the ability to interpret code using Angular and JWT.
