ACHIEVEMENTS

- **LeetCode Contests:** Consistently ranked in the top *16% (1600+ rating)* in competitive programming contests, solving over 250 problems with efficiency and accuracy.
- **CodeChef Rating:** Achieved a *4-star rating* in problem-solving on CodeChef, demonstrating advanced skills in algorithmic challenges and competitive programming.
- **HackerRank Certifications:** Earned *8+ certifications* and showcased skills in Data Structures, JavaScript, Node.js etc. contributing to a robust understanding of coding fundamentals.
- **GeeksforGeeks:** Solved over *400 problems* and maintained a streak of 100+ for Problem of the Day.
- **GitHub Projects:** Developed and maintained several personal projects on GitHub.

PROJECTS (available on my Github repositories)

- **Tourism site:** Built an Airbnb clone using Express, NodeJS, MongoDB, etc.
- **Weather application:** Built a weather app for displaying and predicting the weather using React, WeatherStack API, and Tailwind CSS.
- **ChatBot:** Developed a ChatBot using Python (openAI's API).
- **Text-Editor:** Developing my own text editor using React.
